The closest prior art, a method for cultivating *Haliotis discus hannai* is known from the document D1: "Commercial seeding rearing of abalone *Haliotis discus hannai* in southern shandong", Marine Sciences, (1996)No1, PP. 6-7.

The problem may be regarded as how to cultivating *Haliotis discus hannai* Ino without introducing foreign gene.

The problem is solved with the use of the method in claim 1. The technical features of using the mutant of tangerine shell color *Haliotis discus hannai* Ino and using single cross or group cross mode to make artificial insemination are not known from any of the documents mentioned in the search report.
